About Me

My background in B2B tech inspired me to pursue a path as an engineer where I can be at the core of developing innovative and business-focused products.

My goal is to never stop learning. I want to work at a company where I can leverage the experience of my coworkers and give back with my own hard work and contributions.

Technologies

HTML
Bootstrap
CSS

Education

Emory University
Bachelor of Arts - Economics
Graduated May 2018

Majored in Economics with a concentration in Finance.

General Assembly / Software Engineering Fellow

January 2020 - April 2020, Boston, MA

Completed a 500+ hour, 12-week intensive full-stack development program covering modern technologies and languages.

Completed four projects, each within four workdays:

- **Warhammer Combat Simulator:** Developed a useful application for the popular tabletop-top franchise, Warhammer. The app lets users input units' rules and statistics to simulate hypothetical combat scenarios and predict the outcomes of in-game events. Designed the frontend using React and implemented the backend with MongoDB, Mongoose, and Express.js.
- **Hangout:** In a group, created an online event-listing website that allows users to post, manage, and RSVP to events. Utilized MongoDB, Mongoose, and Express.js for the backend and leveraged Bootstrap and Handlebars heavily for the frontend.
- **Armory:** Designed a video game-esque character equipment management app that allows users to create and customize gear loadouts. Developed the backend using Rails.
- **Tic-Tac-Toe:** Created a single-player Tic Tac Toe application using HTML, CSS, Bootstrap, JavaScript, and jQuery.

Crayon / Competitive Intelligence Analyst

June 2018 - December 2019, Boston, MA

Researched companies' digital activities and online presences across various industries to identify actionable insights and opportunities.

- **Industries include:** CRM software, ERP software, cybersecurity, financial services, pharmaceuticals, and energy.

Collected and analyzed data to create and deliver weekly intelligence reports for users.

Morgan Stanley / Private Wealth Intern

May 2017 - August 2017, Boston, MA

Worked with a private wealth management team and the departments for private banking, business development, and risk operations.

Suffolk County Superior Court / Intern

May 2016 - August 2016, Boston, MA

Worked under two Assistant District Attorneys.
